

SEALMIX[®]

●●●● TOP-ENTRY AGITATOR WITH SEAL

- Energy-conservation innovative
- Adapt to hazardous areas zone 0
- Simple design but follow strict specification
- Short production time

Optional explosion-proof range

Applications: Chemical industry, Pharmacy, Agro- food, Cosmetics

Zone 0, 1,2 in the tank
Zone 1,2 outside the tank

- Suitable for harsh environment in chemical, pharmaceutical, food processing and cosmetic process
- Suitable for mixing, dispersion, dissolution, fermentation, emulsification, storage, chemical reaction and other processes

► Service environment

- Room temperature - 100°C
- Can withstand a pressure of 1.5 bar in the tank
- Meet the sanitary requirements (pharmacy, agro-food, cosmetics)

► Design

- Install from the top
- Hazardous areas: Zone 0, 1, 2
Suitable for various explosion-proof environments
- Standard transmission+sealing system+bottom cover
- The power can reach above 22kW
- Shaft seal
Ordinary lip seal
Garlock lip seal
Single mechanical seal

► Optional configurations

- Removable lip seal for easy replacement without shaft disassembly or bottom cover installation
