

HOMIX[®]

●●● HIGH-SHEARING-TYPE EMULSIFICATION AGITATOR

- Rotor-stator agitator
- Accurate rotor-stator clearance customer-designed
- High shearing and grinding refining brought by ultra-high speed operation
- Upgraded magnetic transmission version

Applications: Argo-food and Pharmacy,
Fine chemical industry

Refine materials fully and evenly

Refine and disperse Liquid-Liquid
emulsification homogenous
Liquid-Solid (powder & small particles)

Mix oily substance (oil phase) and
aqueous substance (aqueous phase)
and form even emulsion
