

SHORTJET™

TOP-ENTRY AGITATOR WITH SHORT PEDESTAL

- Satisfy a variety of mixing requirements.
- The pedestal incorporates a shaft sealing system.
- A horizontal gear reducer with orthogonal axes is optionally available to save installation space.

Applications: Petrochemical industry

Operating Environment

Ambient temperature to 150°C
The vessel can withstand an internal pressure of up to 6 bar.

Features

Short pedestal JET type

Design

Power can reach 200 kW.
