

RAPIDMIX™

●●●● HIGH SPEED TOP-ENTRY AGITATOR

- High rotational speed
- Equipped with high-speed bearings.
- Suitable for high-speed processes such as emulsification.
- Unique coordinated solution for bearing and shaft seal.

Features	High rotational speed, High shear force Rotational speed: 1500-3000 rpm
Power	up to 37 kW
Material	Tailored to actual operating conditions

Applications: Petrochemical industry, Agro-food,
Biopharma

Standard high-speed dispersion
turbine guide device
Inside/outside vessel installation
